- Experience setting up and operating vertical and horizontal machining centers.
- Performing inspections on parts and maintain quality documents.
- Able to multi-task and keep the focus of the shop.
- Detail-oriented and a good communicator (verbally and written).
- Self-sufficient and able to quickly solve any issues that may arise.

QUALIFICATIONS:

- Completion of CNC machine technology program and at least 3 year of machining experience, CNC machining and reading drawings. An equivalent combination of classroom education, apprenticeship and experience is also acceptable.
- 3-5 years machining/setup experience.
- Ability to troubleshoot complex machining issues as they arise.
- Able to inspect and approve parts unsupervised.
- Ability to communicate effectively orally and in writing and to interact/coordinate activities with others.
- Knowledge of MTE BF-5200 is a plus.

SKILLS:

- Assists with new CNC program testing and debugging.
- Create and implement production procedures, documentation and communications.
- Selects proper tooling for machine operation as needed.
- Ensures quality of tooling.

BENEFITS INCLUDE:

- Medical, Dental and Vision Insurance
- Life, and Disability Insurance
- 401K plan
- Paid Holidays and Vacation

MUST PASS PRE-EMPLOYMENT DRUG SCREEN

Job Type: Full-time

Pay: \$30.00 - \$34.00 per hour
